CURRICULUM VITAE

Jaren Loyd C. Heruela

Address: Onglamco bldg. R. Magsaysay blvrd. Sampaloc, Manila

Contact #.: 09100324164

Email: jarenloydheruela@gmail.com

Objective

To perform my school's required (work from home) OJT as a Computer Science student and apply all my abilities, skills and knowledge that will contribute to the company's vision and mission and not only to the company but also share it to my coworkers.

Personal Data

Birth Date: November 24, 1999

Civil Status: Single

Age: 21 yrs. Old

Nationality: Filipino

Educational Attainment

Tertiary : Bachelor of Science in Computer Science
Arellano University
2018 - Present

Secondary : Science Technology Engineering Mathematics
Batanes National Science High School (Senior High)
2016 – 2018

High School : Batanes National Science High School (Junior High)
2012 - 2016

Primary : Basco Central School
2006 - 2012

Non-Technical Skills

- Can communicate and interact with others.
- Fast learner and can adapt to fast-paced environment.
- Able to balance workload efficiently and multitask.
- Proficient in computer and technology related work/task.

Technical Skills

- **Basic Programming**
 - Java
 - C#
 - C/C++
 - Visual Basic
- **DBMS**
 - MySQL
- **Web Development**
 - PHP
 - HTML
 - CSS
- **Multimedia**
 - Blender
 - Photoshop
 - Video Editing

Projects

- Ticketing Management System
- Patient Management System
- School Website

PERSONAL DATA:

Date of Birth: May 12, 2000

Age: 21 yrs. old

Course: *Bachelor of Science in
Computer Science*

PRE-PROFESSIONAL EXPERIENCE:

2D Animation Clean Up & In-
Betweening Artist Intern

Guhit Pinoy Animation
(January 2018 - February 2018)

HOBBIES:

Designing Banners and Logos

Creating Mini Systems

2d animation

CAREER OBJECTIVE

Seeking a new career that would make the best out of me and hone my skills and talents. A career that would utilize me and my knowledge and gain experience from it.

TECHNICAL SKILLS:

- Programming (Java, C#, C++)
- Web Designing (HTML, CSS)
- Animation (2D Animation Blender, Photoshop)
- Graphic design (Banners, Logos, Character Designs)

PERSONAL SKILLS:

- Up to mark verbal communication skills
- Able to adapt from changes
- Able to work as a team player
- Can communicate well with team and customers

EDUCATION:

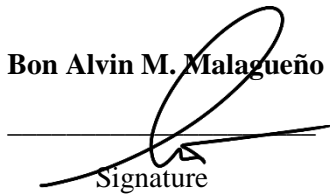

- **College**

WORK EXPERIENCE

Fujitsu Ten Solutions

June 20, 2016 — April 24, 2017

Tools Developer

Developing helper application to increase and help the employees every day task. On the job tanning with 1440 hours rendered.

Fujitsu Ten Solutions Philippines, Inc.

June 2016 — April 2017

Associate Software Engineer

Supports employees by encoding, programming, and implementing their daily tasks given.

On the job tanning with 1440 hours rendered.

CASI (Contact Asia Services Inc.) Research

February 2018 — August 2018

SLG Agent

Calling possible clients and sets appointment for our expert to explain our product.

NEUSOFT

June 2019 — September 2021

Customer Chat Service Support

Chat support for customers that have concerns regarding orders.

CERTIFICATIONS

Denso Ten Solutions Philippines, Corporation (OJT Certification)

Hanston Square, Ortigas Center, Pasig City 1605 (June 20, 2016 - April 24, 2017)

Employability Skills Training

MFI Building, Ortigas Avenue, Pasig City
(October 15, 2016 & October 22, 2016)

Leadership Training Seminar

MFI Building, Ortigas Avenue, Pasig City
(October 31, 2015)

QUALIFICATIONS

Technical Skills:

- Web Development and Web Design
- Programming front-end functionalities
- Basics asset editing using photoshop

- Familiar in Basic Java Programming
- Knowledgeable in Computer Hardware/software maintenance
- Knowledgeable in Computer Network maintenance
- Knowledgeable in Windows Server 2012
- Knowledgeable in OOP/OOM

Language:

- C++ , C#
- Javascript, HTML5, PHP
- CSS/SCSS

Applications

- Visual Studio Code Photoshop
- CC

Frameworks :

- VueJs
- Bootstrap(CSS)
- Vuetify(CSS)

Non-Technical Skills:

- Eager to communication instead of doing procrastinating. Prefer
- Teamwork than working alone
- Initiative taker
- Interested on learning new languages and frameworks Eager
- to finish the task before deadline

EDUCATION

Computer Science

Bachelor of Science in

2018 — Current

Arellano University Candidate
for graduating.

Systems Developer

2015 — 2017

MFI Polytechnic Institute, Inc. (formerly MFI Foundation, Inc.)

Secondary

2012 — 2014

Sisters of Mary Immaculate School

INTERESTS

Interested on Web languages and development.

Currently investing on learning different frameworks.

Newer methodology and approach on creating a web application.

Full scale system development using VueJs and its other css framework.

HISTORY OF COMPANY

The late Florentino Cayco, Sr., first Filipino Undersecretary of Public Instruction and illustrious educator, conceptualized the birth and administered the growth of Arellano University.

This prestigious institution of learning opened in 1938 as the Arellano Law College, named after Cayetano Arellano, first Filipino chief justice. It closed in December 1941 until March 1945 under the Japanese occupation of the Philippines during World War II. At the end of the war, this educational institution reopened in April, 1945 and was renamed as Arellano Colleges offering a two-year preparatory law course and the regular four-year law course, as well as a complete secondary education curriculum.

In June 1945, Arellano Colleges offered a four-year course in education (Bachelor of Science in Education), a two-year teacher training course (Elementary Teacher's Certificate) and an elementary school training department. Likewise offered were courses in commerce, foreign service, and arts and sciences.

A year later, in June 1946, Florentino Cayco, Sr., became the first President of Arellano Colleges. Through his efforts, Arellano Colleges was elevated to, and recognized as, Arellano University on February 22, 1947 by the Department of Education, Culture, and Sports. It was also in 1947 that the graduate school was organized and authorized to offer a course leading to the degree of Master of Arts in education as a requisite for the grant of university status.

In 1954, Arellano University opened a school of nursing which offered a basic nursing course. In April 1960, the School of Nursing expanded its curricular

offerings by adding courses in post-basic nursing with majors in public health and clinical teaching. The School of Nursing was later renamed College of Nursing. At about the same time, a preparatory medical course was added to the general curriculum of the College of Arts and Sciences.

In 1978, the graduate school was renamed Florentino Cayco Memorial School of Graduate Studies, in honor of the founder and first president of Arellano University. Added to the graduate courses were the degrees of Master of Business Administration, Master of Science and Economics and Master of Arts in Nursing. In the same year, the management of the College of Law was turned over to Arellano Law Foundation under a Memorandum of Agreement. Its incessant expansion in all areas and locations has evolved into a network of campuses, the better to serve Metro Manila by going closer to the people.

At present, the Arellano University System boasts of seven campuses, as follows:

1. *Arellano University Main, Legarda Campus*
2. *Juan Sumulong Campus in Legarda , Manila*
3. *Jose Abad Santos Campus in Pasay City*
4. *(AU School of Law) Apolinario Mabini Campus in Pasay City*
5. *Andres Bonifacio Campus in Pasig City*
6. *Plaridel Campus in Mandaluyong City*
7. *Elisa Esguerra Campus in Malabon City*

NATURE OF OPERATION

An persistent desire for knowledge, a passion for truth, and respect for academic freedom inspire Arellano University as a learning institution in all of its undertakings. It does not adhere to any particular doctrine, dogma, or religion. Its fundamental purpose is to foster the growth of young people in a healthy intellectual environment that encourages open discussion and dialogue, with only the rights and best interests of the students and the University as the guiding principles. Guided by this philosophical framework, the University pursues the following objectives:

1. To promote in the faculty and students critical thinking and scientific problem solving through the use of reason, truth and knowledge.
2. To provide opportunities for freedom of inquiry and honest research in the field of learning.
3. To assist in the transformation of the youth into productive, progressive and actively involved citizens of the nation.
4. To preserve and transmit the cultural heritage of the race and desirable Filipino values.

Narrative Account

On the first day of our project development, we still don't know what to do because doing on-the-job training at home is still new to me, and because of the pandemic, all student who is taking OJT are doing work from home. Our supervisor assigned us to make an Arellano University Basic Education Admission System where the beneficiary of this project we're the Basic Education Sector of Arellano University. In the first week of the development, we started developing a schedule plan and doing a flow chart. We conclude that our system is composed of 3 entities the officer, admin, and the cashier. After planning, we started developing the design first because we knew that the design would take time and give me a lot of hassle, and I know designing is the first thing that pop up on the screen of the users. It takes us about three (3) weeks to design the whole system application.

Now that were 90% done with the design, we immediately started doing the coding part for it to function all the buttons and connect to a database system. On the officer/staff side, they need to request an account to access the system and able to admit a student. The cashier side's only do was to received tuition payment of the student to able to fully enroll the student. While on the admin side, this is where all subject, school year, students and account are monitored.

It took a time and lots of effort to finish all of the system's functions, but it was well worth it in the end, as all of the system's flaws and errors were resolved, and the admission system was evaluated and authorized by our supervisor.

VALUABLE KNOWLEDGE OF DAILY ACTIVITIES

On our first doing the OJT Project Base, we were nervous and at the same time excited because it is not exactly first time doing a project base ojt but this is because of the covid problems, that the school were not allowed a on field ojt with the preferred companies. We are group into three with each have different task to work on while were far away from each other specially Mr. Heruela, which is in the province of Batanes which so far away, actually last province of the north. We had always on contact for each member. The leader which is Mr. Heruela is the one who assigned task that will have a certain time to complete. He assigned as per task which then be check and run or debug.

Throughout the following weeks of the planning and formulating the logic, we have enhanced our problem-solving skills, logical thinking, coding ability, coordination and time management. Mr. Ebor then create a flowchart for the system and Mr. Malagueño had his idea to come up with a good design. We then had to create a database that will use for the system because it is needed a database. As we continue to work on, we realize that we need help from the internet for the coding part especially the proper syntax and function and logic.

In the progress of developing the system, we gain a lot of knowledge and understand other programming language. A framework that we use for the design for easier use and more design spectrum. The subject of sir Jayr Torres which is one of the professors of arellano university had as an advantage in creating the system. Hard work, consistency, strict time management, coordination and willing

to do the work had as finish within 4-5 months and had it check by our supervisor,
Mr. Ryan Mercado.

SYSTEM MODULES

Login

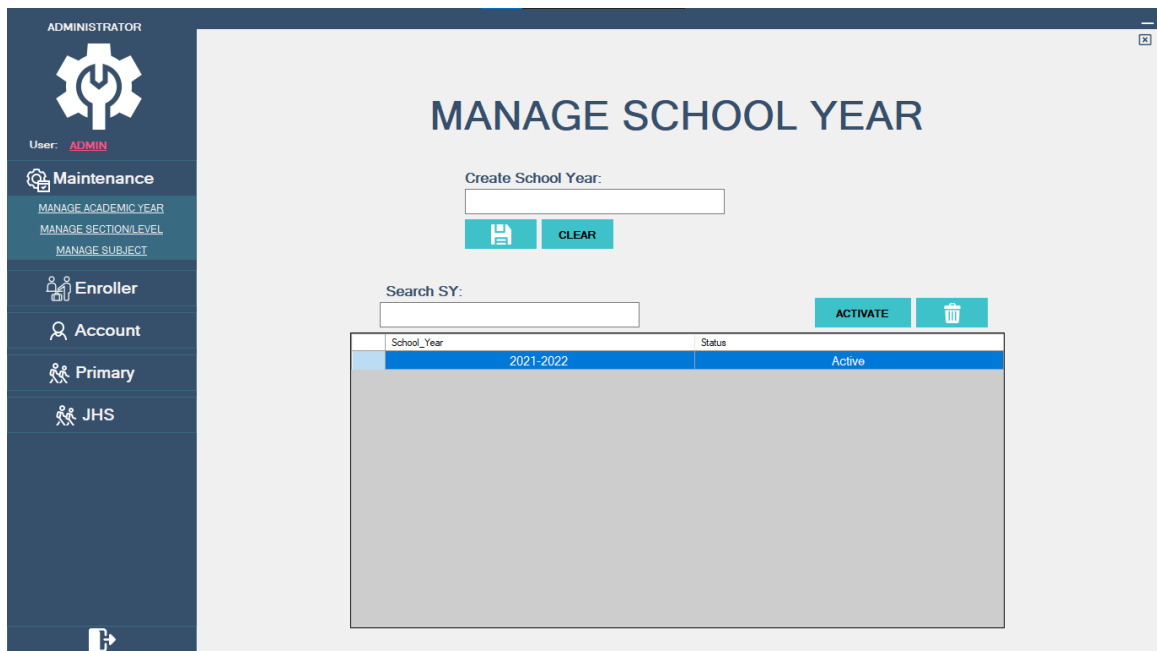

A login form interface with a dark blue sidebar on the left and a light gray main area on the right. The sidebar features a white icon of a person with a checkmark and the text 'LOGIN FORM' at the bottom. The main area contains two input fields for username and password, each preceded by a blue icon (a person and a lock respectively). Below the password field is a checkbox labeled 'Show Password'. At the bottom are two red buttons: 'LOGIN' with a circular arrow icon and 'CLEAR' with an 'X' icon.

Admin Page (Manage and Add Account, Subject, Room, Adviser)

The screenshot shows the Admin Page dashboard. On the left is a dark blue sidebar with the 'ADMINISTRATOR' header, a gear icon, and the user 'ADMIN'. Below are menu items: Maintenance, Enroller, Account, Primary, and JHS. The main content area has a top summary bar with three items: '2021-2022 Academic Year', '1 Enrolled Students', and '1 Number of Students'. In the center is a logo for the 'SCHOOL ADMISSION SYSTEM' featuring a stylized gear and the letters 'SA'.

Add/Edit School Year, Subjects, Section, Account (Admin only)

The screenshot shows the 'MANAGE SCHOOL YEAR' page. The sidebar is identical to the previous page, but the 'Maintenance' menu item is expanded, showing sub-options: 'MANAGE ACADEMIC YEAR' (highlighted), 'MANAGE SECTION/LEVEL', and 'MANAGE SUBJECT'. The main content area has the title 'MANAGE SCHOOL YEAR'. Below it is a 'Create School Year' section with a text input field, a save icon, and a 'CLEAR' button. A 'Search SY:' section includes a search input field, an 'ACTIVATE' button, and a delete icon. At the bottom is a table with two columns: 'School_Year' and 'Status'.

WEEKLY REPORT

Arellano University

School of Computer Science

Week no.	Date	Task Performed	No. Hours Rendered
1	06/16/2021	We have the first meet meeting for the summer class at 1 pm. Our professor oriented us about the computer practicum (OJT).	3
1	06/17/2021	I go at the office (Hospital) at the IT department and acquiring if I could possibly take an OJT to them.	4
1	06/18/2021	This day, I search online for possible work from home OJT but couldn't found a possible company.	3
1	06/19 – 20/2021	This two day are I been doing some Portfolio website and writing a Resume.	11
2	06/21/2021	Got an answer from my father that they prioritize student in this province that needed an OJT. And the rest of the day is just hanging around searching in the web for company.	0.5
2	06/22 - 23/2021	Still waiting for the companies that I apply for the OJT for their response.	2
2	6/24 - 25/2021	These days, there's nothing that I do for the rest of the period.	8

3	06/28/2021	We meet with our professor for the Verification and Confirmation of OJT.	2
3	06/29-30/2021	I tried to inquire in the capitol office with the help of my aunt who work there, for the Job Order.	9
3	07/1-2/2021	I search again online for OJT.	4
3	07/02/2021	I write a weekly report.	2

4	07/05/2021	I have no done in this day	8
4	07/06/2021	We discuss with our professor about the project base topics and assign the respective supervisor	3
4	07/7/2021	We seek for the requirement with our supervisor, he said that we send him a sample admission system for him to check.	1
4	07/8/2021	We send him the example system but still no reply.	1
4	07/9/2021	We decide to wait until further message from him because recently their baby died, that's why we still not doing anything.	1

5	07/12/2021	We start the design of a prototype admission system.	5
5	07/13/2021	I assign member to work on a certain part for the designing only.	5
5	07/14/2021	I receive the work of my member for me to compile into one file and I revise some of the redundant.	9
5	07/15/2021	I create a list of some possible requirement for the system, for my member to know and aware of the system work flow, and add some design to our system.	6
5	07/16-17/2021	We were told to revise the flowchart and add some features. We quickly change and do the changes in the system as fast as possible.	14

6	07/19-20/2021	We started the introduction and software and hardware requirements in the documentation.	7
6	07/21-22/2021	I started to connect the system to the MySQL Database for the easy coding and debugging.	9
6	07/23/2021	I encounter a Wamp server error, I tried to fix it within the day but failed.	10
6	07/24/2021	Still trying to fix the Wampp server. A couple of hours past, I decided to skip and move on to the codes of every form functions.	13

7	07/27/2021	I add some additional form in the system and code each button.	9
7	07/28/2021	System runs through for some unnecessary things and errors.	7
7	07/29/2021	Coding and debugging	6
7	07/30/2021	System runs through for more in dept checking and verifying all the buttons.	6

8	08/02-6/2021	No Coding and Debugging, just rest week	
---	--------------	---	--

9	08/09/2021	I screen record the run through of the system to show and comment for my groupmates.	2
9	08/10-13/2021	I have no task to do, but I do check the task done by my groupmates.	6

Week no.	Date	TASK PERFORMED	No. Hours Rendered
1	05-24-2021	My cousin referred me to her BPO company named IBEX. I filled out an online form and sent it to one of IBEX interviewer's email. I received a call the same day I applied from IBEX that served as an initial interview. I answered the interview but unfortunately, I was unable to pass the initial interview.	5hrs
1	05-26-2021	I joined a facebook group for BPO hiring. I found a lot of people referring for jobs on that group. I started inquiring with several people in hopes of getting a job. Unfortunately, not all person I inquired to responded to my messages. I kept on Inquiring from different referrer and I landed on Task.	7hrs
1	05-27-2021	I received an email from Taskus asking me to comply and answer the online exam. I answered the exam within the time limit and waited for the results. While waiting, I was inquiring with other referrers in hopes of finding a job suitable for me. After hours of waiting, I finally received my results and unfortunately, I was not qualified for their company.	9hrs

1	05-29-2021	One of the referrers informed me that I passed on the initial screening in Transcom. I waited for the email for my schedule of interview. I received a call from Transcom confirming my application. Unfortunately, the interviewer advised that I should study first before taking a job. However, I received an email from Transcom about the schedule of my google meet interview. Once again, I failed the interview.	7hrs
1	05-29-2021	I inquired with a referrer from Alorica. I gave some information and waited for the text or emails from Alorica. While waiting, I inquired with other companies such as Startek and Teleperformance. I also gave my information to the referrers and waited for the reponse. I got a response from one of the referrers of Startek saying that I were to take the interview onsite.	7hrs
1	05-30-2021	I waited for the response of other referrers but I got nothing. I tried to reach for them but I got no response. I tried inquiring with other referrers but no luck was found at that time. I stopped inquiring for a while and waited for other confirmations from the referrers.	5hrs

2	06-28-2021	I started gathering my requirements and list up all the things I needed in acquiring all of the requirements. I prepared my PhilHealth ID which I had way before. Then, I filled out an SSS form(E1) online.	5hrs
2	07-29-2021	I started signing up for national ID to get my philsys number. It's a big hassle but acquiring such a useful ID can help me a lot in future outcomes.	5hrs

2	07-01-2021	I got my cedula to acquire a baranggay clearance. Baranggay clearance is needed in acquiring my NBI Clearance that's why I am preparing to get my	7hrs
2	07-02-2021	I acquired my NBI Clearance. Lining up early in the morning might sound so hassle but it's totally worth it.	4hrs

3	07-11-2021	We started planning our system. We were task to find an admission system on the internet to learn more about admission systems and make some flowcharts. We planned the flow of the system and dissect each part of it to make sure that we will not miss anything.	7hrs
3	07-12-2021	We are still planning for our system and we made progress. We started drafting our designs and picked a color that will be applied to the system.	5hrs
3	07-13-2021	We decided on a color scheme that will be used for the system. The logo has been made that will be used in the system.	5hrs

3	07-14-2021	We scrapped our first design and made a new one. We chose another color scheme that will be used for the system. Progress had been made.	6hrs
3	07-15-2021	We scrapped our first design and made a new one. We chose another color scheme that will be used for the system. Progress had been made.	6hrs

4	07-09-2021	We started planning our system. We were task to find an admission system on the internet to learn more about admission systems and make some flowcharts. We planned the flow of the system and dissect each part of it to make sure that we will not miss anything.	8hrs
4	07-10-2021	We are still planning for our system and we made progress. We started drafting our designs and picked a color that will be applied to the system.	8hrs
4	07-11-2021	We decided on a color scheme that will be used for the system. The logo has been made that will be used in the system.	8hrs

4	07-12-2021	We scrapped our first design and made a new one. We chose another color scheme that will be used for the system. Progress had been made.	8hrs
4	07-13-2021	We scrapped our first design and made a new one. We chose another color scheme that will be used for the system. Progress had been made.	8hrs

5	07-15-2021	We started to coding part. We started from the flow of the system; on where does this button will go if the user clicks this	5hrs
5	07-16-2021	We started adding other forms to the system. We added some features so that it will separate the users from student to admin.	6hrs
5	07-17-2021	We asked someone who is knowledgeable to know what will we put on the registration form of the students. We made three forms of each transferee, new, and old students.	6hrs

5	07-18-2021	We were asked to redo the flowchart of our system and we started another flow, remaking some parts of the system.	4hrs
5	07-19-2021	we redo our system and added some features for the administrator to use.	5hrs

6	07-21-2021	We once again added some of the small features like simple validations and tweaked some designs so that the user will find our system eye pleasing.	8hrs
6	07-22-2021	We got most of our system coded already. We created forms that adds subjects. If mistakes were made, the admin can delete or edit it.	8hrs
6	07-23-2021	We added forms for the students and for the admins. Admins can now check the student's record if they have submitted the correct requirements and if they are ready for enrollment.	8hrs

6	07-24-2021	We continued working on each form, checking if we forgot something to add. We considered this day to be our rest day due to some circumstances.	5hrs
6	07-25-2021	We experienced errors that made us unable to login to the system. After watching some YouTube videos for solution, one of our groupmates solved the problem.	8hrs

7	07-27-2021	Our leader added some forms that would add functions to the system. He showed it to us and pointed out some things to do.	8hrs
7	07-28-2021	There are some errors that we experienced. Some are fixable within minutes and some took longer than we expected.	5hrs
7	07-29-2021	We just manage to get some work done.	6hrs

7	07-30-2021	System checking	5hrs
---	------------	-----------------	------

8	08-02-2021	We took a whole week to rest	
---	------------	------------------------------	--

9	08-09-2021	Our leader showed us some presentation of the system and I compiled all the screen recorded videos.	5hrs
9	08-10-2021	Our leader appointed us our works to do. We worked some parts and we continued some other parts of the system as well.	8hrs

9	08-11-2021	We presented some of our progress to our leader to verify if it's good to continue	8hrs
9	08-12-2021	We continued to work with our parts	5hrs
9	08-12-2021	I encountered several errors but youtube soved it	6hrs

10	08-13-2021	We took weeks of rest for the system	
----	------------	--------------------------------------	--

11	09-15-2021	Another task was given to us by our leader.	5hrs
11	09-16-2021	We continued to work on the new task. Creating forms, adding buttons and functions.	8hrs

12	10-04-2021	We planned to communicate with our proctor but we focused on the discussion of the system first	8hrs
12	10-05-2021	I continued o work on my part	8hrs
12	10-06-2021	I finished most of my part. I continued to work on it till friday	8hrs

12	10-07-2021	We continued to work with our parts	7hrs
12	10-08-2021	I finally finished my part and sent it to our leader for checking	5hrs
12	10-09-2021	We scheduled a meet with our proctor and he told us what to remove and add to our system.	3hrs

13	10-11-2021	We took weeks of rest for the system	
----	------------	--------------------------------------	--

14	11-09-2021	We continued to work our pars and check if there are some unfinished businesses	5hrs
14	11-10-2021	Our leader sent us a full copy of the whole system	
14	11-15-2021	We are continuing the documents that are not finished yet	5hrs

Week no.	Date	TASK PERFORMED	No. Hours Rendered
1	06-27-2021	We study the assigned program for us to work on and did some research on how to implement it.	8hrs
1	06-28-2021	Once we have studied and research how to implement the program, we started to brainstorm on what to do next for the program.	8hrs
1	06-29-2021	After studying and brainstorming we concluded to make a flowchart first to present to our supervisor.	8hrs
1	06-30-2021	We manage to create the flowchart for the program and still were needed some arrangements.	8hrs

1	07-01-2021	We manage to create the flowchart for the program and still were needed some arrangements.	5hrs
----------	-------------------	--	-------------

2	07-09-2021	For this day we are still finishing the design for each forms in the Visual studio	8hrs
2	07-05-2021	After providing the flowchart to our supervisor we were ask to make a new arrangement for the flowchart.	8hrs
2	07-06-2021	The flowchart is already approved by the supervisor now we only have to start on making the design for the program	8hrs

2	07-07-2021	We brainstorm on how to make the design for the program and how can we make it a user-friendly interface.	8hrs
2	07-08-2021	Today we started on making each design for the program in the Visual Studio	5hrs

3	07-11-2021	We started planning our system. We were task to find an admission system on the internet to learn more about admission systems and make some flowcharts. We planned the flow of the system and dissect each part of it to make sure that we will not miss anything.	8hrs
3	07-12-2021	We are still planning for our system and we made progress. We started drafting our designs and picked a color that will be applied to the system.	5hrs
3	07-13-2021	We decided on a color scheme that will be used for the system. The logo has been made that will be used in the system.	8hrs

3	07-14-2021	We scrapped our first design and made a new one. We chose another color scheme that will be used for the system. Progress had been made.	8hrs
3	07-15-2021	We scrapped our first design and made a new one. We chose another color scheme that will be used for the system. Progress had been made.	8hrs

3	07-16-2021	We started to coding part. We started from the flow of the system; on where does this button will go if the user clicks this	8hrs
4	07-19-2021	We started adding other forms to the system. We added some features so that it will separate the users from student to admin.	8hrs
4	07-20-2021	We asked someone who is knowledgeable to know what will we put on the registration form of the students. We made three forms of each transferee, new, and old students.	7hrs

4	07-21-2021	We were asked to redo the flowchart of our system and we started another flow, remaking some parts of the system.	8hrs
4	07-22-2021	we redo our system and added some features for the administrator to use.	8hrs

4	07-23-2021	We once again added some of the small features like simple validations and tweaked some designs so that the user will find our system eye pleasing.	8hrs
5	07-26-2021	We got most of our system coded already. We created forms that adds subjects. If mistakes were made, the admin can delete or edit it.	8hrs
5	07-27-2021	We added forms for the students and for the admins. Admins can now check the student's record if they have submitted the correct requirements and if they are ready for enrollment.	8hrs

5	07-28-2021	We continued working on each form, checking if we forgot something to add. We considered this day to be our rest day due to some circumstances.	5hrs
5	07-29-2021	We experienced errors that made us unable to login to the system. After watching some YouTube videos for solution, one of our groupmates solved the problem.	8hrs

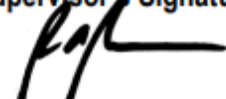

6	07-30-2021 – 08-06-2021	Has been given a task to check the program more coding, and debugging. I had some problems with coding so I asked my groupmates for some help and was able to fix the problems.	40hrs
7	08-09-2021 – 08-15-2021	Given the task to debug the program and was asked to correct the code if there are any problems.	40hrs
8	08-16-2021 – 08-22-2021	Was given new specification for the program had to make some adjustments on the program.	40hrs

9	08-23-2021 – 08-29-2021	Fixing up some designs to make the program good in the eyes	40hrs
